

# Bidding in Timed Auction Events

Timed Auction events gather live bids from participants for a set period of time. BidMed’s automated bidding system make the process simple and easy.

## 1. Register for Event

All buyers must register for each event they’d like to purchase from. Once registration is open for an event, there are two ways to sign up:

### Upcoming Events | ([bidmed.com/events](http://bidmed.com/events))

This page aggregates all upcoming BidMed Special Events. When registration is open, buyers can use the buttons to view more details or to register directly for the event.

**Event Details Page** | (*URL specific to event*) At the top right of the page, buyers will find a Register button.

## Upcoming Auctions

To participate in a BidMed Auction:

- buyers must have an **active account with BidMed** online. Sign up for a **FREE buyer’s account** now.
- users must also **register for each event** they’d like to participate in. Follow the links below to register for individual sales.

## 2. View Listings

Once registered and logged in, users can view all listings available in the event.

Buyers can add items to their **Watch List** by clicking the “watch” icon. These items are then accessible using listing filters.

**Bids** may be submitted from the Listings page, or buyers can view more details and submit bids by clicking **View Details**.

## 3. Submit Bids

Buyers can submit bids from the Listings or Item Detail pages. For listings with a group (lot) of multiple items, a pricing table helps buyers determine their final offer price.

A notice will show if you’ve bid on, or been outbid on an item.

## 4. Event Closing Process

**Closing Intervals** | Items close after the event closing time when the item has not received a new bid within 15 minutes.

**Winners** | If you are the highest bidder on one or more listings, you will receive an email notification at the close of sale, and an invoice within 24 hours.

**Invoicing and Payment** | Winners receive an email including their invoice for all items won, payment details, and event-specific information. Payment is due before pickup.

**Pickup + Shipping Logistics** | Buyers are responsible for all shipping and handling costs. Depending on the event, BidMed may be able to recommend service providers based on event location.

Most events will include a specific pickup window, and details regarding the process (including a responsible contact) will be sent with your invoice details.
